ABOUT US

Master Line Mechanical Equipment Works LLC SPC engineering components to meet the Specific needs of the customers, From one-off's to high volume manufacturing, we can deliver your requirements.

"Small enough to care, Large enough to cope"

We are established in 2011 and based in Abu Dhabi. In that time we have built an excellent reputation, both locally and nationally for our Quality and reliability.

MMEW can offer a solution to your machining, fabrication and DNV requirements, whether they are customer supplied drawings and designs or through discussions to understand the customer's concept.

Our strength besides state of the art machinery is a vastly experience, highly skilled workforce, who have been involved in many sectors of this industry, and have the versatility and commitment to solve challenging requirements.

Service Provided:

- Manufacturing and repairing oil tools.
- Structural engineering.
- On- site machining and fabrication works.
- Containerized water treatment solutions. (RO, STP & customized treatment containers)
- Custom - built mechanical components and assemblies.
- Precision Machining.
- Heavy machinery repair and maintenance
- General Fabrication.
- DNV standard Baskets
- Slick line Down-hole tools

Quality Policy:

Quality and value for money are our priority, irrespective of the application, MMEW will always meet the highest world class quality standards to supply our client requirements.

All our work is carried out in accordance with ISO 9001:2015 standards and procedures. Inspection by accredited bodies and customers is actively encouraged.

Mission:

To provide complete, reliable, and innovative engineering solutions that meet international standards, exceed customer expectations, and deliver longterm value through quality, safety, and technical excellence.

Vision:

Delivering worldliness mechanical fabrication and engineering services Building longterm partnerships based on trust, performance, and transparency, Investing in people, technology, and processes for sustainable growth, Upholding the highest standards of quality, safety, and compliance.

STRENGTH & CAPABILITIES

WELDING STRENGTH

- TIG Welding (GTAW)

High-precision welding for stainless steel, aluminum, and thin-gauge materials. Ideal for critical components requiring clean, high-quality finishes.

- MIG Welding (GMAW)

Fast, efficient welding for structural fabrication, aluminum works, and high-volume production with consistent bead quality.

- ARC Welding (SMAW)

Heavy-duty welding suitable for onsite works, repair jobs, and thick-section materials, ensuring strong penetration and durability.

- Aluminum Welding

Specialized capability for aluminum structures, frames, tanks, and precision components using both TIG and MIG processes.

MACHINING CAPABILITIES

CONVENTIONAL & CNC TURNING

TURNING CAPACITY

Lathe	Turning Diameter Ø200 to Ø1250 mm Turning Length 320mm to 1800 mm Chuck Size up to Ø1050mm
CNC Lathe	Chuck Size 200mm, Max Turning Dia 240mm, Length 500mm, Siemens Control

VERTICAL MACHINING CENTER (VMC)

Specification	Details
Axes	X, Y, Z
Bed Size	915 × 360 × 625 mm
Spindle Speed	4000 RPM
Control System	FANUC
Feed Rate	50-1000 mm
ATC	20 Tools
Tool Holder	BT40
Lubrication	Automatic

DRILLING CAPABILITIES

Capacity

3 to 50mm Drill Capacity

HYDRAULIC PRESS

Specification	Details
Press Capacity	3 Ton
Cylinder Slider Bed	590 mm
Job Height Slider Length	900 mm
Hydraulic Pressure	0-400 Bar
Pressure Rating	0-6000 PSI

SHEAR CUTTING MACHINE

Specification	Details
Cutting Capacity	2500 mm × 10 mm Thick Plate
Operation	Hydraulic

BAND SAW MACHINE

Specification	Details
Cutting Capacity	180 mm Diameter

HEAT TREATMENT FACILITIES

Equipment	Specification
Heat Furnace	Up to 1500°C
Work Bed Size	13" × 9" × 9"

Attention: Master Line Mechanical Equipment Works LLC

Subject: Appreciation Letter

We are pleased to express our sincere appreciations for the outstanding services received and supports provided.

It has been a pleasure collaborating with your team where we are genuinely impressed by the professionalism and dedication demonstrated throughout our partnership.

The exceptional quality of work and the attention to detail provided by your company have significantly contributed to the success of our projects. It is to note that your team's ability to consistently deliver on time, coupled with their proactive approach to problem-solving, has been instrumental in achieving our goals.

Please convey our gratitude to your entire team for their hard work and dedication.

Look forward to continuing our successful collaboration and achieving even greater milestones together.

Thank you once again for your exceptional service and support.

Yours sincerely,

Ibraheem Thani Al Hammadi
Vice President, Wireline Services
